

# LOVED BY PATIENTS OF ALL AGES

The miracle we've both been waiting for is here: Solea.®

Solea is a breakthrough dental laser that replaces the dental drill or scalpel for the vast majority of procedures in our practice. It's gentle, fast, and precise. Solea helps to eliminate the three major fears of going to the dentist – the drill, needle, and numbness. In fact, nearly every patient skips anesthesia because they just don't need it.

Solea is our way of keeping you happy.

Because more than anything, we love to see you smile.

## A ZERO-ANXIETY EXPERIENCE

- No drill, needles, or numbness
- Virtually no bleeding and no sutures
- Gentle and virtually pain-free treatments
- Rapid and predictable healing
- Faster and fewer appointments
- Minimal post-operative discomfort

Solea's unique wavelength enables fast, precise, and gentle cutting of teeth and gums. Dental procedures, from simple cavities to complex surgeries, are completed virtually pain-free and blood-free, eliminating the need for anesthesia and sutures.
